Comparative Analyst Report for 2013

Southside ISD is located south of San Antonio our community is mainly rural and is predominantly hispanic. Our student body is made up of 90.4 % Hispanic, 8.1% white, 0.9% Asian and Native Hawaiian/Other Pacific Islander 0.4% (Information obtained from PEIMS report). Our campuses are located throughout South Bexar County. We have one elementary campus that is located within the San Antonio city limits.

In the 2013 year our officers made a total of twelve traffic stops the majority of which were made on school district property.

In February 2013 we participated in the Click It or Ticket program which accounts for eleven of our traffic stops. In all eleven of our traffic stops the officers knew the violator's ethnicity before they were stopped. Due to the fact that the officers were visually looking for seatbelt violations, thus allowing the officer to see the driver before the stop.

We had one traffic stop was off campus, during that stop the officer noticed a strong odor of marijuana emanating from the vehicle. The officer informed the driver of his observation and asked the driver if he had any marijuana or paraphernalia in the vehicle. The driver told the officer that he had a pipe in his glove compartment and gave the officer permission to retrieve it. The officer searched the rest of the vehicle and nothing else was found. The officer then cited the driver for No Driver's License and Possession Drug Paraphernalia.

All of the violators in our twelve traffic stops were hispanic, this can be justified due to the fact that our community is 90% Hispanic.

Respectfully,

DEZ
