

**The Krum Police Department  
Annual Racial Profiling Report  
(2013)**

# **(I) Introduction**

# Opening Statement

March 3, 2014

Krum City Council  
Krum, Texas 76249

Dear Distinguished Members of the City Council,

In an effort to address the issue of racial profiling in policing, the Texas Legislature passed, in 2001 the Texas Racial Profiling Law (S.B. 1074). Since becoming effective, the Krum Police Department, in accordance with the law, has collected contact data for the purpose of identifying and addressing (if necessary) concerns regarding racial profiling practices by police officers. In 2009, the Texas Racial Profiling Law was modified and new requirements are now in place.

This report contains three sections with information on contact data along with documentation, which aims at supporting the fact that the Krum Police Department has complied with The Texas Racial Profiling Law. You will find, in section 1, the table of contents in addition to the Texas Law on Racial Profiling. Also, in this section, you will have the opportunity to become acquainted with the list of requirements relevant to the Racial Profiling Law as interpreted by TCOLE (Texas Commission on Law Enforcement).

Sections 2 and 3 present documentation which demonstrates compliance of the Krum Police Department with the Texas Racial Profiling Law. Specifically, documents relevant to the implementation of an institutional policy banning racial profiling, the implementation of a racial profiling complaint process (including the manner in which it has been disclosed to the public) and the training administered to all law enforcement personnel, are included.

This report also contains statistical data relevant to motor vehicle contacts between 1/1/13 and 12/31/13. This information has been analyzed and compared to data derived from the U.S. Census Bureau in the form of the Fair Roads Standard, and to the citation and arrest-based contact data collected in 2013. The final analysis and recommendations are also included.

The data and supporting documentation presented in this report support the notion that the Krum Police Department is committed to the identification and resolution (if necessary) of all issues relevant to racial profiling according to the state law.

Sincerely,

Interim Chief Terry Hargis  
Krum Police Department

# **Texas Racial Profiling Law Requirements**

## Guidelines for Compiling and Reporting Data under Senate Bill 1074

### Background

Senate Bill 1074 of the 77<sup>th</sup> Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of *what* must be accomplished by an agency but allows wide latitude in determining *how* the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

### Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

### Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an "agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties."

The article further defines race or ethnicity as being of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American." The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

## **Standard 2**

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

## **Commentary**

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

## **Standard 3**

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

## **Commentary**

Senate Bill 1074 from the 77<sup>th</sup> Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for “tier one” data for traffic stops in which a citation results are:

- 1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of “a particular descent, including Caucasian, African, Hispanic, Asian, or Native American”);
- 2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
- 3) whether there was a custody arrest.

The minimum requirements for reporting on “tier two” reports include traffic and pedestrian stops. Tier two data include:

- 1) the detained person’s gender and race or ethnicity;
- 2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
- 3) whether a search was conducted, and if so whether it was based on consent or probable cause;
- 4) facts supporting probable cause;
- 5) the type, if any, of contraband that was collected;
- 6) disposition of the stop, e.g., arrest, ticket, warning, or release;
- 7) location of stop; and
- 8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

#### **Standard 4**

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

#### **Commentary**

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

**Standard 5**

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

**Commentary**

None

**Standard 6**

Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

**Commentary**

The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

**Standard 7**

Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

**Commentary**

Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

# **The Texas Law on Racial Profiling**

AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE  
STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy

adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled during the previous calendar year to the governing

body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

(a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the

## **(II) Responding to the Law**

# **Institutional Policy on Racial Profiling**

# **Racial Profiling Policy**

## **I. PURPOSE**

The purpose of the policy is to reaffirm the Krum Police Department's commitment to unbiased policing in all its encounters between officer and any person; to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion; and to protect our officers from unwarranted accusations of misconduct when they act within the dictates of departmental policy and the law.

## **II. POLICY**

It is the policy of this department to police in a proactive manner and, to aggressively investigate suspected violations of law. Officers shall actively enforce state and federal laws in a responsible and professional manner, without regard to race, ethnicity or national origin. Officers are strictly prohibited from engaging in racial profiling as defined in this policy. This policy shall be applicable to all persons, whether drivers, passengers or pedestrians.

Officers shall conduct themselves in a dignified and respectful manner at all times when dealing with the public. Two of the fundamental rights guaranteed by both the United States and Texas constitutions are equal protection under the law and freedom from unreasonable searches and seizures by government agents. The right of all persons to be treated equally and to be free from unreasonable searches and seizures must be respected. Racial profiling is an unacceptable patrol tactic and will not be condoned.

This policy shall not preclude officers from offering assistance, such as upon observing a substance leaking from a vehicle, a flat tire, or someone who appears to be

ill, lost or confused. Nor does this policy prohibit stopping someone suspected of a crime based upon observed actions and/or information received about the person.

### III. DEFINITIONS

**Racial Profiling** – A law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

Racial profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants or other citizen contacts.

The prohibition against racial profiling does not preclude the use of race, ethnicity or national origin as factors in a detention decision. Race, ethnicity or national origin may be legitimate factors in a detention decision when used as part of an actual description of a specific suspect for whom an officer is searching. Detaining an individual and conducting an inquiry into that person's activities simply because of that individual's race, ethnicity or national origin is racial profiling. Examples of racial profiling include but are not limited to the following:

1. Citing a driver who is speeding in a stream of traffic where most other drivers are speeding because of the cited driver's race, ethnicity or national origin.
2. Detaining the driver of a vehicle based on the determination that a person of that race, ethnicity or national origin is unlikely to own or possess that specific make or model of vehicle.
3. Detaining an individual based upon the determination that a person of that race, ethnicity or national origin does not belong in a specific part of town or a specific place.

A law enforcement agency can derive at two principles from the adoption of this definition of racial profiling:

1. Police may not use racial or ethnic stereotypes as factors in selecting whom to stop and search, while police may use race in conjunction with other known factors of the suspect.

2. Law enforcement officers may not use racial or ethnic stereotypes as factors in selecting whom to stop and search. Racial profiling is not relevant as it pertains to witnesses, etc.

**Race or Ethnicity** – Of a particular decent, including Caucasian, African, Hispanic, Asian, or Native American.

**Pedestrian Stop** – An interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

**Traffic Stop** – A peace officer that stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic.

#### **IV. CITATION DATA COLLECTION & REPORTING**

An officer is required to collect information relating to traffic stops in which a citation is issued. On the citation officers must include:

1. the violators race or ethnicity;
2. whether a search was conducted;
3. was the search consensual; and
4. arrest for this cited violation or any other violation.

By March of each year, the department shall submit a report to their governing board that includes the information gathered by the citations. The report will include:

1. a breakdown of citations by race or ethnicity;
2. number of citations that resulted in a search;
3. number of searches that were consensual; and
4. number of citations that resulted in custodial arrest for this cited violation or any other violation.

Not later than March 1<sup>st</sup> of each year, this department shall submit a report to our governing body containing this information from the preceding calendar year.

**Complaint Process: Informing the  
Public and Addressing Allegations  
of Racial Profiling Practices**

### **Informing the Public on the Process of Filing a Racial Profiling Complaint with the Krum Police Department**

Since January 1, 2002, the Krum Police Department, in accordance to The Texas Racial Profiling law, launched an educational campaign aimed at informing the public on issues relevant to the complaint process. The police department made available, in Krum, information relevant to filing a complaint on a racial profiling violation by a Krum Police Officer.

The Krum Police Department included language, in its current complaint process, pertaining to the manner in which citizens can file a complaint as a consequence of a racial profiling incident. It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

# **Racial Profiling Training**

### **Racial Profiling Training**

Since 2002, all Krum Police Officers were instructed, as specified in S.B. 1074, to adhere to all Texas Commission on Law Enforcement Officer Standards and Education (TCLEOSE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Krum Police Department have completed the TCLEOSE basic training. The main outline used to train the officers of Krum has been included in this report.

It is important to recognize that the Chief of the Krum Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Krum Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

## **2.0 RACIAL PROFILING AND THE COMMUNITY**

**2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.**

**2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.**

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

### **3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION**

**3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.**

**3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.**

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling

1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation
3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

**3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.**

A. Drug courier profile (adapted from a profile developed by the DEA)

1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling

6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

**3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.**

A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior

1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators

1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

D. Vehicle interior

1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

# **Analysis and Interpretation of Data**

## Analysis

The Texas Racial Profiling Law requires police agencies in the state to collect data when a traffic-related citation is issued or an arrest is made. In 2009, this was changed to include all motor vehicle related contacts where a citation was issued or arrest made. In addition, the law requires that agencies report this information to their local governing authority and (recently) TCLEOSE, by March 1st of each year. The purpose in collecting and presenting this information is to determine if a particular police officer is engaging in the practice of profiling minority motorists. Despite the fact most agree that it is good practice for police departments to be accountable to their community, it is very difficult to determine, from the review of aggregate data, if police departments are engaging in racial profiling. That is, it is challenging to detect specific “individual” racist behavior from the study and analysis of aggregate-level “institutional” data on traffic-related contacts.

The Krum Police Department, in response to the requirements of The Texas Racial Profiling Law (S.B. 1074), reported and analyzed its 2013 motor vehicle-related contact data. Thus, three different types of analyses were conducted. The first of these involved a careful evaluation of the 2013 contact data. This particular analysis measured, as required by the Texas Racial Profiling Law, the number and percentage of Caucasians, African Americans, Hispanics, Asians, Native Americans, Middle Easterners, and individuals belonging to the “other” category, that came in contact with the police and were issued a motor vehicle-related citation or arrested in 2013. In addition, the analysis included information relevant to the number and percentage of searches (table 1) while indicating the type of search (i.e., consensual or probable cause) conducted. Finally, the data analysis highlighted the number and percentage of individuals who, after they were issued a citation, were subsequently arrested. Further, it included the total number of officers that knew and did not know the race or ethnicity of an individual prior to being detained.

The second type of analysis included in this report, related to the comparison of the 2013 motor vehicle contact data with an appropriate baseline. It should be noted that there is also a great deal of disagreement, in the academic literature, over the type/form of baseline to be used when analyzing traffic-related contact information. Of all the baseline measures available, the Krum Police Department decided to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households in a particular jurisdiction that have access to vehicles while controlling for race and ethnicity. It should be noted that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. In other words, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population.

The Krum Police Department opted to use this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its “transparency” before the community. The Fair Roads Standard data obtained is relevant to the city of Krum.

The third type of analysis was conducted while using the 2007--2013 traffic and motor vehicle contact data. Specifically, all contacts made in 2013 were compared to similar figures reported from 2007 to 2013. When considering this analysis, it was determined that comparing seven years of contact data may highlight possible areas of consistency with regards to overall police contacts. In other words, the eleven-year comparison has the potential of revealing indicators that a trend of police-initiated contacts with regards to members of a specific minority group, is in fact, developing. The overall analysis of data indicates that over a seven year period when traffic contact data is broken down by race percentage, it is consistent with the population in the City of Krum, Texas.

#### Tier 1 (2013) Motor Vehicle-Related Contact Analysis

The Tier 1 data collected in 2013 showed that Caucasians were overwhelmingly the highest race contacted in traffic related contacts, with Hispanics being the next closest. Africans, Asians, Native Americans, and Middle Easterners making up a very small percentage of the remaining population contacted. This is consistent with the 2010 census data.

#### Fair Roads Standard Analysis

When comparing traffic contacts to the census data relevant to the number of “households” in Krum who indicated, in the 2010 census, that they had access to vehicles, the analysis produced the following findings:

Caucasians make up 85% of households in the City of Krum and 82.3% of the traffic related contacts.

Hispanics make up 9% of households in the City of Krum and 14.5% of the traffic related contacts.

Africans make up 2% of households in the City of Krum and 2.3% of the traffic related contacts.

Asians make up 1% of households in the City of Krum and 0.5% of the traffic related contacts.

Native Americans make up 0.5% of households in the City of Krum and 0.0% of the traffic related contacts.

Middle Eastern and other races make up 2.5% of households in the City of Krum and 0.4% of the traffic related contacts.

### Seven-Year Comparison

The seven-year comparison (07-13) showed similarities with respect to the traffic-related contacts. As evident in table 3, the percentage of drivers by race contacted on traffic related contacts is consistent with the population in the City of Krum, Texas.

### Summary

The Fair Roads Standard analysis showed that the Krum Police Department came in contact (in traffic-related incidents) with 1521 total subjects including all races during the 2013 calendar year. These numbers provided throughout this report are consistent with the number of people contacted by race and the actual percentages of those races living within the city limit of Krum, TX.
