SUBJECT: Citizen Contact Data Report for 2013

Since January 1, 2002, Tyler Junior College Campus Police, in accordance with the Texas Racial Profiling Law (Senate Bill No. 1074), has been collecting police contact data for the purpose of identifying/responding (if necessary) to concerns regarding racial profiling practices. Senate Bill 1074 mandates that law enforcement agencies in the state of Texas comply with the provisions as set forth in Article 2.132, 2.133, 2.133, and 2.134 of the Texas Code of Criminal Procedure. Law enforcement agencies must now annually report detailed statistics concerning the race of individuals who are stopped and searched in their jurisdictions. Senate Bill 1074 requires Texas law enforcement agencies to collect traffic stop data and to annually report the data to the governing body of the agency. This report reflects motor vehicle stop data of Campus Police for the calendar year 2013 and is presented to the President and Board of Trustees for its review.

Campus Police's written policy on racial profiling clearly defines acts that constitute racial profiling, strictly prohibits officers from engaging in such, and provides a process by which individuals may file a complaint if they believe they have been stopped or searched by a peace officer based solely on their race, ethnicity, or national origin

This report is also submitted to the Texas Commission on Law Enforcement Officer Standards and Education (TCLEOSE) as required by House Bill 3389 of the 81st Legislature. The information contained in this report complies with the Tier 2 fully reporting category. The Tier 2 fully reporting category is for police agencies with no video or audio recording equipment in their motor vehicles.

What is Racial Profiling? Racial Profiling is defined in the Texas Code of Criminal Procedure Article 3.05 as "a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity".

Definitions

Traffic Stop- An interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

Background This is the eleventh year for the reporting of police contact data under Senate Bill 1074. Campus Police have complied with all the statutory requirements including establishing a written policy, the collection of required information, and all officers have successfully completed the mandated training and education program as required by the Texas Commission on Law Enforcement (TCOLE)

Data Collection Issues Police agencies are required to report data from traffic contacts.

Report on Complaints For the period January 1, 2013 through December 31, 2013, there were **no** complaints filed against a Campus Police Officer for violating Racial Profiling Policy.

Overview of 2013 Stop Data In 2013 Campus Police initiated 137 traffic related stops, down from the 250 stops in 2012 and lower than the 155 contacts in 2011. The campus is located off of a State Highway (64E) and near a business and residential district. Table 1 shows the total number of stops by Race/ethnicity and the detention disposition. Every motorist stopped by a Campus Police received a citation/ticket. Table 2 indicates reasons for the traffic stop (i.e. hazardous traffic violation, non-hazardous traffic violation, city ordinance violations). Seventy (70%) percent of the traffic stops were for offenses considered “moving” traffic violations and thirty (30%) percent were for vehicle traffic violations (equipment, inspection, registration). During 2013, the City of Tyler traffic department installed a traffic signal light at the intersection of Fifth St-Baxter St that previously only was controlled by a stop sign and a no left turn sign. The new traffic signal light at Fifth-Baxter on the public street running through the middle of campus was the location and the reason for a number of traffic related violations observed by Campus Police officers. Table 3 provides information regarding the Gender of contacted individuals. Seventy-one (71%) percent of individuals stopped by Campus Police were males. Table 4 contains the latest U.S. Census demographic profile from Smith County Census tract nine, block group three. The table indicates that an equal number of Whites and African Americans live in close proximity to the main campus. Table 5 contains the 2010 census demographic summary for the City of Tyler. Table 6 indicates the Spring 2013 student Headcount for Tyler Junior College students by ethnicity. Table 7 shows the Fall 2013 student Headcount for Tyler Junior College by ethnicity.

In 2013 Campus Police Officers conducted a total of 137 traffic related stops. The 137 contacts made in 2013 are a decrease of 113 contacts from the 250 contacts reported from 2012. Of the 137 traffic related stops, only four vehicles were searched by Campus Police.

Summary The Texas Racial Profiling Law requires that all police departments in the State collect citizen contact data and report this information to their local governing authority. The purpose of the reporting is to determine if peace officers engage in the practice of profiling minority individuals. It is very difficult to determine from figures if a specific officer has engaged in acts of racial profiling. During 2013, Campus Police eliminated the last security guard position. The department has a total of nineteen (19) sworn full-time peace officer positions. The combined total of citations issued would average about 7.2 traffic stops per campus police officer. The number of traffic related stops in 2013 decreased by forty-five (45%) from the 250 traffic related stops in 2012.

Currently there is no single baseline measurement for a definitive comparison. Cities and Counties may use census data that contains information on residents of a defined geographic area. However, census data presents a challenge for comparison for campus police agencies due to their limited geographic areas of responsibility. Information captured on individuals in and around a college campus may not be representative of the general demographics of a City or County. For 2013 due to the extreme low number of citizen contacts, no valid comparisons can be made.

Tyler Junior College Campus Police Department continues to address the issue of racial profiling. Campus Police are committed at identifying and addressing (if necessary) areas of concern with respect to the profiling of minority individuals. Campus Police strives to continue our efforts toward providing professional police services to all individuals. Our main objective is to maintain a safe and orderly environment for our students, employees, and visitors.

TIP: You will notice that if you add all the individual race categories with the category "Hispanic/Latino Ethnicity", the total percentage will exceed 100%. This is caused by the fact that the Census does not consider "Hispanic/Latino Ethnicity" as a race, but rather an ethnicity.
