

Reference: Racial profile Data 2012

Attention: TCLEOSE

From: Chief Tyler Banister

To whom it may concern,

I, Chief Tyler Banister, with the Winfield police Department am notifying you of inconsistencies in the reporting of the Racial Profiling Data. I took over as Chief at November 1 in 2011. I asked the then secretary about the racial profiling data and she assured me that the program LT Systems that we use for the court records keep up with the information. This person is no longer employed with this department and we have replaced her. Agent McCann notified me that our data would be due on the date of 03012012 on the date of 02282012. I started obtaining the information the court records on this data and noticed that they were not entering data correctly. There is no data on Middle Eastern and Native American but there are 71 listed as other, which is not a reporting option. Data was not collected on the race known to officer prior to stop. The Total entered for Race and Ethnicity-Middle Eastern- will show 71 which is not correct. This will be the 71 that I do not have identified through Race or Ethnicity but are listed as others in our system. On the number of traffic stops for citation it will be listed with 2544 total for line 1, 2, and 3. Here again the arrest were not keep up with in the court records. I had to obtain this information from an offense report data system with the UCR Reporting information. I attempted to retrieve additional information from Titus County Sheriff Office about persons arrested by the Winfield police department. There system could not provide me with that information. I apologies for this inconvenience and lack of data. I assure you that these issues have been addressed and will be properly entered from this point on.

Respectfully,

A handwritten signature in blue ink, appearing to read "Tyler Banister", is written over the word "Respectfully,".

Chief Tyler Banister

Winfield Police Department
